

No. 05/2016

NEW CLUTCH DRUM (659 937) FOR 125 MAX ENGINE SERIES

2016 03 02

Dear Distributor,

we would like to inform you about following technical change.

The clutch drum 659 930 has been replaced by the new clutch drum 659 937 (see picture).

Due to the reinforcement on the outside, the new clutch drum provides a significantly improved durability with same performance features.

Engine serial production

The clutch drum 659 937 has been fitted as of engine serial no. 8620459.

Spare parts

Clutch drum 659 937 is available from stock and can be ordered via the online order system as of today.

Pricing

MSRP (manufacturer suggested retail price) 2016: € 32,10
Discount for distributors: 40%

RMC

The new clutch drum is already included in the actual RMC technical regulation and therefore legal to be used for national and international RMC races.

Communication

You can inform your sales network about this change as of today.
Active communications to end users may not start before April 01st, 2016.

Best regards,

A handwritten signature in blue ink, appearing to read 'Voglsam'.
